

ALTERNATIVE 2: In-Basin, Kindred Reservoir

This in-basin alternative adds storage capacity within the Red River Valley by constructing a new reservoir on the Sheyenne River near Kindred and a much smaller ring-dike reservoir near Fargo.

Features:

1. Build new Kindred Reservoir on the Sheyenne River.
2. Construct water supply pipeline from new Kindred Reservoir to upper Red River near Wahpeton.
3. Create ring-dike reservoir near Fargo to store spring flows.
4. Deliver treated surface-water from the Red River to rural water systems throughout the valley.
5. Incorporate water conservation measures.
